Statement:

Time for Change

I believe it's time for those who have never served on the council to step up with a different outlook and perspective on our organization and how it will function into the future. As someone who has been a member of the NHFOA I am aware of how to bring the best of the past into the future while still bringing a new perspective to the council.

Working games this season I've seen and experienced a change in how we interact with each other. A new emphasis on the positive and less looking for any minor misstep another official may make in working a game. I want to be part of growing this change to assist in retaining officials. It can also be a powerful tool in attracting new candidates.

I've been the Executive Director of two non-profits and President of a professional organization. I have experience in the workings of non-profit organizations and have been successful in them. Help me bring this type of growth to our organization. Many non-profits eventually die due to the governing bodies inability to change to adapt to the current needs of those it serves. The council serves its members. Allow me to assist the council in representing and working for the members in the best manner possible.

Given the status-quo I realize that my candidacy is a long shot at best.

Please know that I believe in this organization and am running to help it both survive and thrive in the future.
