

Fellow NHFOA Members;

I am tossing my hat into the proverbial ring by running for a position on the Executive Council. I have been a member of this board since 2003. In the past I have served on 2 committees, the retention and mechanics committees. I am currently the Manchester local meeting coordinator. Now is the time for me to get more involved in the organization. Having the local coordinator also a member of the council should help in keeping the membership more aware of what is happening at the councils meetings. If you think that I would be a good candidate for the council than I would appreciate your vote.

Thank You.

Fred Russell
