

To all Members of NHFOA,

My purpose for seeking election to the council is to assist the NHFOA in continuing its excellence and traditions while finding ways to make our organization open to all members and more attractive to new potential apprentices. Having spent the majority of my career managing non-profit organizations and as president of a professional organization my hope is to use these skills to help our organization remain a leader in high school sports officiating and attract the new members.

When not involved with football I am semi-retired. After years of working as an executive director of programs for abused and neglected children, finance director of the Bureau of Human Services and managing the State of NH's homeless shelter program I now officiate baseball and lacrosse along with working at Gunstock Mountain Ski Area part time. My wife, I and my daughter hope to visit my son this summer who is a Doctor of Physical Therapy practicing in Keni Alaska.

Our organization faces my difficult decisions and adjustments in its future. Not only what these decisions may be but also the method and manner in which they are made will play a big part in the future of the NHFOA. My education and experience provide me with the confidence that I can contribute to the council in a meaningful way to work through these challenges. This is why I ask for your vote.

Thank you for your consideration,

John W. Morris
