A spirited discussion followed between Sarette, Bolduc, Clark and Trask to which the answer was... "in the past, Council did not want to hurt the feelings of any member that did not fare well in the election process" Delois stated "it is not the job of Council to worry about hurting people's feelings with regards to an election result."

The current results placed on a table for any councilor to review. If any member inquired the councilor could share results. The topic will be brought up and dealt with appropriately in the near future.

Councilor Sarette asked how the CHaD East/West game officials are selected. Discussion continued. Chairman Trask explained the criteria is simply longevity - years on board and
