

Rick Brownley Candidate Statement

To all Members of NHFOA,

I have decided to run for a seat on the council and would appreciate your support. I've been a patched official since 2011 and feel my experience and positive attitude make me an ideal candidate. We have the best association in the state and I intend for it to remain the best. That is why I have decided to run.

I began running the Seacoast local meetings this year and found it enjoyable and rewarding. I believe I have made a difference. I can see it in the local membership by how engaged they've become in the classroom and how much we all get out of each and every class. This has motivated me to do more. I want to make a difference for the entire association.

Outside of football I work as a Senior Manufacturing Engineer at Munters Corporation in Amesbury, MA. I live in Rochester and most of my free time is spent working around the house or playing golf. I have a beautiful wife named Donna who makes sure I never run out of things to do at home. My son Kyle is out making a life for himself and no longer at home. Time is not an issue for me so I will be able to dedicate as much time as required to do the best job possible for the NHFOA membership.

There are many challenges ahead for the NHFOA. I look at them as opportunities and want to be part of team that keeps this great organization ahead of the others.

Thank you for your consideration.

Rick Brownley
